

GENETIC DIAGNOSTICS AND THERAPEUTIC APPROACHES FOR HEREDITARY AUDITORY DISORDERS

medgen 2-2020

- 📄 Hereditary auditory disorders
Barbara Vona, Thomas Haaf
- 📄 Expert interpretation of genes and variants in hereditary hearing loss
Marina T. DiStefano, Madeline Y. Hughes, Mayher J. Patel, Emma H. Wilcox, Andrea M. Oza
- 📄 Non-syndromic hearing loss: clinical and diagnostic challenges
Barbara Vona, Julia Doll, Michaela A. H. Hofrichter, Thomas Haaf
- 📄 Usher syndrome: diagnostic approach, differential diagnoses and proposal of an updated function-based genetic classification
Hanno J. Bolz
- 📄 Clinical and molecular genetics of Meniere disease
Estrella Martinez-Gomez, Alvaro Gallego-Martinez, Pablo Roman-Naranjo, Jose A. Lopez-Escamez
- 📄 Gene therapy as a possible option to treat hereditary hearing loss
Michael Morgan, Juliane W. Schott, Axel Rossi, Christian Landgraf, Athanasia Warnecke, Hinrich Staecker, Anke Lesinski-Schiedat, Brigitte Schlegelberger, Hildegard Büning, Bernd Auber, Axel Schambach
