

**Programme Introduction Talks Junior Research Group Leader
in the Faculty of Biology
Department of Neurobiology and Genetic**

Tuesday, 30th of April, 2019

**Lecture room A 102
Biocenter, Am Hubland Süd**

"Neurogenetics and Circadian Behavior"

10:00 - 10:30	Dr. Jan M. Ache Howard Hughes Medical Institute, GB Janelia Research Campus	"Neural mechanisms for sensorimotor flexibility in <i>Drosophila</i>"
10:30 - 11:00	Dr. Esteban Javier Beckwith Imperial College London, GB Department of Life Science	"Genetic and metabolic effects of sleep deprivation"
11:00 - 11:30	Coffee break	
11:30 - 12:00	Dr. Michael Schleyer Leibniz-Institut Magdeburg, Germany Department Genetics of Learning and Memory	"Integrating past, present and future: adaptive decision-making in <i>Drosophila</i>"
12:00 - 12:30	Dr. Damiano Zanini University of Würzburg, Germany Faculty of Biology	"Genetic and functional dissection of mechanosensation in <i>Drosophila</i>"

Die Vorträge sind öffentlich und ALLE sind hierzu herzlich eingeladen!
