

Position Opening

The Chair of Microbiology at Julius-Maximilians-Universität Würzburg (JMU), Germany, is inviting applications for a

Postdoctoral Scientist (f/m/d)

under the direction of Prof. Dr. Thomas Rudel.

The Biocenter of the University of Würzburg is an interdisciplinary center for basic research with currently 14 departments and chairs. The mission of the Department of Microbiology is the investigation of molecular principles leading to diseases as consequence of bacterial infections.

We invite applications for a postdoctoral position available in the Department for Microbiology, Rudel/Bergmann group, for up to 3 years. While the position is full time, candidates wishing to work part time may also be considered (if full-time work can be ensured through job sharing). Remuneration will be based on the collective agreement for the public service of German federal states (TV-L).

Aim of our project is the validation of the innovative potential of bacterial based vaccines.

Invited are highly motivated candidates ideally with a strong background in vaccination, immunology/immunotherapy, in vitro and in vivo infection models (mice). Further qualifications should be interdisciplinary thinking and excellent communication skills. The position will involve working as part of a competent and efficient team with access to the excellent infrastructure.

We focus on a close integration of research and management and strive for excellence inside and outside the laboratory. Promoting equal opportunities and competencies for our employees and celebrating diversity are a matter of course for us. To ensure a good work-life balance, we have created a family-friendly atmosphere with flexible working hours and part-time models, a parent-child room and regular social activities.

The JMU aims to reduce the underrepresentation of women and therefore explicitly encourages qualified women to apply.

Severely handicapped applicants will be given preferential consideration in the case of broadly equal suitability, ability and professional achievements.

For details, please see <http://www.mikrobio.biozentrum.uni-wuerzburg.de/> or contact Prof. Thomas Rudel (thomas.rudel@uni-wuerzburg.de).

Please direct applications including the name, addresses and telephone numbers of two references till 07.05.2025 to

Lehrstuhl für Mikrobiologie
Biozentrum
Am Hubland
97074 Würzburg

or send an e-mail to: sekretariat.mikrobiologie@uni-wuerzburg.de

Please do not send any original documents to us; only send photocopies. As we need to save costs, we will not be able to return your documents to you. They will be shredded shortly after a hiring decision has been made. If you enclose a postage-paid return envelope, we will return your application documents to you three months after a hiring decision has been made.
