

BIOZENTRUM WÜRZBURG

Kolloquium

Mittwoch, 17:15 Uhr, HS A101

Julius-Maximilians-
**UNIVERSITÄT
WÜRZBURG**

04. Jun

Arnaud Hubstenberger

RNA condensate plasticity during development and in response to the environment

iBV Université Côte d'Azur Nice

11. Jun

Simon Alberti (MSNZ Lecture)

Biomolecular condensates as an organising principle in biology

Biotec TU Dresden

25. Jun

Jürgen Liebig

Cuticular hydrocarbon perception in social insects as a model system for olfaction

Arizona State University

09. Jul

Danny Nedialkova

Fundamental mechanisms orchestrating the birth of proteins

Max Planck Institute of Biochemistry Martinsried

16. Jul

Melina Schuh

**Theodor-Boveri-Lecture
of the Physico Medica**

MPI for Multidisciplinary Sciences Göttingen

23. Jul

Bernd Pulverer
