

Biozentrums-Kolloquium

Biozentrum, Hörsaal A101, Mittwochs, 17 Uhr c.t.

Julius-Maximilians-

UNIVERSITÄT
WÜRZBURG

24.10.2018

Georg Gasteiger, Universität Würzburg

Local players in immunity: networks of tissue-resident lymphocytes

14.11.2018

Dean W. Felsher, Stanford University

MYC oncogene is a master regulator of the immune response

28.11.2018

Matthias Peter, Eidgenössische Technische Hochschule, Zürich

Ubiquitin-dependent regulation of cell division

11.12.2018

Physico Medica Vortrag

Thomas Cooper, Baylor College of Medicine, Houston

Investigation of myotonic dystrophy revealed a network of developmentally regulated alternative splicing, the disruption of which causes disease features

Veranstaltungsort

Institut für Molekulare Infektionsbiologie, D15, Raum 01.002-004

19.12.2018

Kevin Ryan, Beatson Institute, Glasgow

Autophagy and cell death in cancer

30.01.2019

Physico Medica Vortrag

Christoph Klein, Universität Regensburg

“Studying the nature of the seed”: unexpected findings and future challenges in metastasis research

Organisation: Prof. Dr. Fischer / Prof. Dr. Gessler

Kontakt: Tel: +49 931 31-84160 / E-Mail: l-ebch@biozentrum.uni-wuerzburg.de
