

BIOZENTRUM WÜRZBURG

Kolloquium

Mittwoch, 17:15 Uhr, HS A101

Julius-Maximilians-
**UNIVERSITÄT
WÜRZBURG**

**25.
Oktober**

Chaitanya Gokhale
Imagined realities: How theory illuminates complex biological systems (Antrittsvorlesung)
Universität Würzburg

**08.
November**

Gerald Kerth
Bats and climate change: the importance of long-term field studies
Universität Greifswald

**06.
Dezember**

Steven West
Restricting and directing transcription by RNA polymerase II
University of Exeter

**10.
Januar**

Malte Jochum
Above-Belowground Interaction Ecology under Global Change (Antrittsvorlesung)
Universität Würzburg

~~**17.
Januar**~~

~~**Martin Egelhaaf**
Insects in 3D: Towards an understanding of spatial and orientation
Universität Bielefeld~~

Canceled

**31.
Januar**

Nadja Simons
Humans and Nature - biodiversity and ecosystem services in managed landscapes (Antrittsvorlesung)
Universität Würzburg

**07.
Februar**

Konstanze Winklhofer
Linear ubiquitination at the interface between innate immune signaling and protein quality control
Ruhr-Universität Bochum
